Jane pointed out that, unlike prior years, R9 has no tribal recipients this year. Successful award recipients will be notified tomorrow and will be announced via EPA's press releases and media strategy. Unsuccessful applicants will receive a letter (but will also become aware based on EPA's media outreach and communication of the awardees.)

Given that a significant number of our tribes applied for Brownfields funding, and that many tribal representatives are here in our offices this week for RTOC meetings, we wanted you to be aware of the national Brownfields award announcement (and regional amplification), and of the implications for our tribes (who may not receive formal notification til late this week or early next week.)

**FOR IMMEDIATE RELEASE:** May 8, 2013  
**CONTACT:** David Yogi, 415/972-3350, [yogi.david@epa.gov](mailto:yogi.david@epa.gov)

**Two Grass Valley, Calif. groups awarded \$1 million in U.S. EPA Brownfields grants**

*Grants part of over \$62.5 million awarded nationally*

**SAN FRANCISCO** – The U.S. Environmental Protection Agency today awarded \$600,000 in Brownfields hazardous substances cleanup grants to the Yuba River Charter school, located in Grass Valley, Calif. and \$400,000 in community-wide hazardous substance and petroleum assessment grants to City of Grass Valley (Calif.) as part of a \$62.5 million in EPA Brownfields Assessment, Revolving Loan Fund, and Cleanup (ARC) grants awarded nationally to over 240 recipients.

**“These grants will go a long way to bring areas in Grass Valley back into productive reuse while engaging community members in the process,” said Jared Blumenfeld EPA’s Regional Administrator for the Pacific Southwest. “EPA is pleased to be able to fund these local projects that will help revitalize neighborhoods and spur economic activity.”**

Three \$200,000 hazardous substance cleanup grants were awarded to Yuba River Charter School to remediate areas near the school that were mined for gold in the 19<sup>th</sup> century and, more recently, used for 50 years to burn municipal solid waste. Upon completion of the site remediation, the properties will become part of the new Yuba River Charter School.

The City of Grass Valley’s \$200,000 community-wide hazardous substance assessment grant and \$200,000 community-wide petroleum assessment grant will be used to conduct approximately 30 Brownfields hazardous substance site assessments sites across the city. Results from these site assessments will be used to create ranked inventories of hazardous substance and petroleum sites and develop cleanup strategies. Grant funding will also be used to conduct community involvement activities.

Nationally, 240 recipients have been recommended to receive \$62.5 million in grants. These new investments, funded by EPA’s Brownfields Assessment, Revolving Loan Fund, and Cleanup (ARC) grants, provide communities with funding necessary to assess, cleanup and redevelop contaminated properties, boost local economies and leverage jobs while protecting public health and the environment.

These Brownfields grants target under-served and economically disadvantaged neighborhoods – places where environmental cleanups and new jobs are most needed. Approximately \$29.5 million are going to communities that have been impacted by plant closures. Other selected recipients include tribes and communities in 45 states across the country, and nearly half of the grantees this year are new recipients.

There are an estimated 450,000 abandoned and contaminated sites in the United States. More than 20,000 properties have been assessed, and more than 850 properties have been cleaned up. EPA’s Brownfields investments have also leveraged more than \$19 billion in overall cleanup and redevelopment funding from public and private sources. On average \$17.79 is leveraged for every

EPA Brownfields grant dollar spent. These investments resulted in approximately 87,000 jobs nationwide. When Brownfields are addressed, nearby property values can increase 2-3 percent.

A 2011 pilot study indicated Brownfields site redevelopment increases location efficiency, which means that residents live closer to where they work and play reducing their commute times and greenhouse gas emissions. EPA's preliminary research has also shown that redeveloping Brownfield sites results in an efficient reuse of existing infrastructure and decreasing instances of stormwater runoff. These projects can have a positive impact on community revitalization by leveraging jobs, producing clean energy, and providing recreation opportunities for surrounding neighborhoods.

Dear Ms. Ebbert,

I am following up regarding arranging a meeting between Jared Blumenfeld and representatives of the Summit Lake Paiute Tribe. One possibility would be for Jared to come to a Summit Lake Paiute Tribal Council meeting. During the winter their meetings are held in Sparks Nevada. The next one will be on Saturday February 16 and the one after that on Saturday March 16. If that doesn't work, I will see if Chairwoman DeSoto could make arrangements to come to San Francisco again.

Sincerely,

Aaron Peskin

Hi Aaron -

I hope you had a good New  
Year's!

I am in receipt of the  
letter and agree it would  
make sense to have a  
meeting with the Chair.  
Please can you work with  
Laura Ebbert to set up a  
time that works for all. We  
can also do a call if in-  
person is tough to  
organize.

Best, Jared

Dear Jared,  
Happy New Year. Just checking to see if you are in receipt of Summit Lake Paiute Tribe Chairwoman Randi DeSoto's letter regarding the on-going financial matters with EPA?

She would like to meet with you in an attempt to resolve the matter.

Please let me know if you have not received the letter which was supposed to have gone out a couple of weeks ago.

Best,  
Aaron Peskin

Subject: Summit Lake Paiute Tribe

Dear Ms. Ebbert,

I realize it is rather short notice, but  
Summit Lake Paiute Tribal

Chairwoman Randi DeSoto could

meet with Mr. Blumenfeld in San Francisco on

Tuesday January 15. If that doesn't work, I look forward to working with you to arrange a mutually convenient time.

Sincerely,

Aaron Peskin

Subject: Re: Summit Lake Paiute  
Tribe

Hi Aaron -

I hope you had a good New Year's!

I am in receipt of the letter and agree it would make sense to have a meeting with the Chair. Please can you work with Laura Ebbert to set up a

time that works for all. We can also do a call if in-person is tough to organize.

Best, Jared

Dear Jared,

Happy New Year. Just checking to see if you are in receipt of Summit Lake

Paiute Tribe Chairwoman Randi DeSoto's letter regarding the on-going

financial matters with EPA? She would like to meet with you in an attempt

to resolve the matter. Please let me know if you have not received the letter which was supposed to have gone out a couple of weeks ago.

Best,

Aaron Peskin

I think these people might be:

Karen Jayne, Stardust Executive Director  
Bob Darre, President, Stardust Board of Directors  
Phil McNeely, Manager of Office of Environmental Programs for the City of Phoenix

Not sure which one is Bob and which is Phil, but these were those who were slated to attend the event.

Zoe: You wouldn't know, would you?

Thanks!

Subject: RE: Meeting with Bob Perciasepe and SF Giant's Management

Hi Chris-

I can be available to meet with Mr. Perciasepe on March 5th. I am wondering if we might be able to move the meeting to Scottsdale Stadium since he will be attending the game here that afternoon? I am happy to coordinate with his staff directly if you want to put me in touch with them.

Unfortunately, my duties as the manager of our spring training franchise will require me to be at Scottsdale Stadium that day, so unless we can move the meeting to this location or meet after the game that day, I would not be available to attend.

Thank you –  
Sara

Chris -

I have cc'd Alfonso & Sara who manage our Scottsdale operations. I don't believe any senior management from SF, other than me, will be in Arizona early next week. His area of interest doesn't fall into my area of the business - so I will ask Sara or Alfonso determine availability.

Thanks,  
Stephen

Subject: Meeting with Bob Perciasepe and SF Giant's Management  
Hi Chris:

As we discussed, Bob Perciasepe, the acting Administrator for the US Environmental Protection Agency, would like to meet with the SF Giant's Management when he is in Phoenix on March 5th at 12:15pm. The meeting will be at Chase Field, the Arizona Diamondback's Stadium, located at 401 E. Jefferson St. Phoenix, AZ 85004. Bob has tickets to see the Giants v Indians game.

Prior to his current role, Bob was the Deputy Administrator for US EPA, appointed by President Obama in 2009. Bob would like to meet with the Giant's Management to discuss US EPA's Green Sports Initiative and the great work the Giant's have been doing to foster sustainability in baseball.

The point of contact for us is Stephanie Owens who works with Bob in DC. She is copied above.

Thanks!

Dear Ms. Ebbert,

I am following up regarding arranging a meeting between Jared Blumenfeld and representatives of the Summit Lake Paiute Tribe. One possibility would be for Jared to come to a Summit Lake Paiute Tribal Council meeting. During the winter their meetings are held in Sparks

Nevada. The next one will be on Saturday February 16 and the one after that on Saturday March 16. If that doesn't work, I will see if Chairwoman DeSoto could make arrangements to come to San Francisco again.

Sincerely,

Aaron Peskin

Jane pointed out that, unlike prior years, R9 has no tribal recipients this year. Successful award recipients will be notified tomorrow and will be announced via EPA's press releases and media strategy. Unsuccessful applicants will receive a letter (but will also become aware based on EPA's media outreach and communication of the awardees.)

Given that a significant number of our tribes applied for Brownfields funding, and that many tribal representatives are here in our offices this week for RTOC meetings, we wanted you to be aware of the national Brownfields award announcement (and regional amplification), and of the implications for our tribes (who may not receive formal notification til late this week or early next week.)

**FOR IMMEDIATE RELEASE:** May 8, 2013  
**CONTACT:** David Yogi, 415/972-3350, [yogi.david@epa.gov](mailto:yogi.david@epa.gov)

**Two Grass Valley, Calif. groups awarded \$1 million in U.S. EPA Brownfields grants**

*Grants part of over \$62.5 million awarded nationally*

**SAN FRANCISCO** – The U.S. Environmental Protection Agency today awarded \$600,000 in Brownfields hazardous substances cleanup grants to the Yuba River Charter school, located in Grass Valley, Calif. and \$400,000 in community-wide hazardous substance and petroleum assessment grants to City of Grass Valley (Calif.) as part of a \$62.5 million in EPA Brownfields Assessment, Revolving Loan Fund, and Cleanup (ARC) grants awarded nationally to over 240 recipients.

**“These grants will go a long way to bring areas in Grass Valley back into productive reuse while engaging community members in the process,” said Jared Blumenfeld EPA’s Regional Administrator for the Pacific Southwest. “EPA is pleased to be able to fund these local projects that will help revitalize neighborhoods and spur economic activity.”**

Three \$200,000 hazardous substance cleanup grants were awarded to Yuba River Charter School to remediate areas near the school that were mined for gold in the 19<sup>th</sup> century and, more recently, used for 50 years to burn municipal solid waste. Upon completion of the site remediation, the properties will become part of the new Yuba River Charter School.

The City of Grass Valley’s \$200,000 community-wide hazardous substance assessment grant and \$200,000 community-wide petroleum assessment grant will be used to conduct approximately 30 Brownfields hazardous substance site assessments sites across the city. Results from these site assessments will be used to create ranked inventories of hazardous substance and petroleum sites and develop cleanup strategies. Grant funding will also be used to conduct community involvement activities.

Nationally, 240 recipients have been recommended to receive \$62.5 million in grants. These new investments, funded by EPA’s Brownfields Assessment, Revolving Loan Fund, and Cleanup (ARC) grants, provide communities with funding necessary to assess, cleanup and redevelop contaminated properties, boost local economies and leverage jobs while protecting public health and the environment.

These Brownfields grants target under-served and economically disadvantaged neighborhoods – places where environmental cleanups and new jobs are most needed. Approximately \$29.5 million are going to communities that have been impacted by plant closures. Other selected recipients include tribes and communities in 45 states across the country, and nearly half of the grantees this year are new recipients.

There are an estimated 450,000 abandoned and contaminated sites in the United States. More than 20,000 properties have been assessed, and more than 850 properties have been cleaned up. EPA’s Brownfields investments have also leveraged more than \$19 billion in overall cleanup and redevelopment funding from public and private sources. On average \$17.79 is leveraged for every

EPA Brownfields grant dollar spent. These investments resulted in approximately 87,000 jobs nationwide. When Brownfields are addressed, nearby property values can increase 2-3 percent.

A 2011 pilot study indicated Brownfields site redevelopment increases location efficiency, which means that residents live closer to where they work and play reducing their commute times and greenhouse gas emissions. EPA's preliminary research has also shown that redeveloping Brownfield sites results in an efficient reuse of existing infrastructure and decreasing instances of stormwater runoff. These projects can have a positive impact on community revitalization by leveraging jobs, producing clean energy, and providing recreation opportunities for surrounding neighborhoods.

More information on Brownfields grants by state: [http://cfpub.epa.gov/bf\\_factsheets/](http://cfpub.epa.gov/bf_factsheets/)

This Email message contained an attachment named  
image001.jpg  
which may be a computer program. This attached computer program could  
contain a computer virus which could cause harm to EPA's computers,

network, and data. The attachment has been deleted.

This was done to limit the distribution of computer viruses introduced into the EPA network. EPA is deleting all computer program attachments sent from the Internet into the agency via Email.

If the message sender is known and the attachment was legitimate, you should contact the sender and request that they rename the file name extension and resend the Email with the renamed attachment. After receiving the revised Email, containing the renamed attachment, you can rename the file extension to its correct name.

For further information, please contact the EPA Call Center at (866) 411-4EPA (4372). The TDD number is (866) 489-4900.
